

## **Light of the Future – CAPO 4**

<https://driven11.com/>

**Written by Dominick Cox, Tyrus Morgan and Jay Speight**

*This is the chord progression throughout the entire song for each phrase.*

Am C Em9 (omit 5)

### **Verse 1**

In the dark, felling like an outcast,

Breath deep, heart beats so fast

Kind of shy but you want to take the next step, cause there's hope hanging on your next breath

You're in the dark but it will never out last love

### **Chorus**

First was the light, then came the light, we are the light, lighting up the future (x2)

**Instrumental:** Am C Em9 (omit 5)

### **Verse 2**

Rise up, march out with the sun

Light a match set fire to another one

Cause there's a lie saying there's no hope left, but there is hope its hanging on your next breath

Rise up, fear will never outlast love

### **Chorus**

### **Bridge**

We are greater then what is seen in our reflections

He is stronger, He is stronger and we are stronger in the light

We are greater then what is seen in our reflections

He is stronger, He is stronger and we are stronger in the light

**CHORUS x 2 overlaying the Bridge on the Chorus with second vocal**
