

# Passenger

<https://driven11.com/>

Written by Dominick Cox, Tyrus Morgan and Jay Speight

## Verse 1

C                    G                    Am                    F                    C  
Thought I knew my way, had it all figured out, I was going and going, no slowing down  
C                    G                    Am                    F                    Am  
Kept turning left, when I should have turned right, always getting blinded by the brake lights  
Am                    F                    Am                    G  
Had to crash and burn, for me to see my need

## Chorus

C                    G                    Am                    F  
I'm giving You my life, I want You to drive. wooooh, I'm just a passenger  
C                    G                    Am                    F  
I'm giving You soul, giving up control, wooooh, I'm just a passenger  
C                    G                    Am                    F  
Ooooh ooooh ooh x 2

## Verse 2

C                    G                    Am                    F  
You took the mess I made, the wreckage that was me and You gave me freedom, freedom  
Am                    F                    Am                    G  
Now all I want is what You want for me

## Chorus

### Bridge

C                    G                    Am                    F  
I'm giving You my life, I want You to drive.  
C                    G                    Am                    F  
I'm giving You my life, I want You to drive. Ooooooh I'm just a passenger  
C                    G                    Am                    F  
I'm giving You my soul, giving up control, Woooooh, I'm just a passenger  
C                    G                    Am                    F  
Ooooh ooooh ooh  
   C                    G                    Am                    F  
I'm giving You my life Ooooh ooooh ooh  
   C                    G                    Am                    F                    C(end)  
Giving up control Ooooh ooooh ooh
